

PABLONEMO

BE PART OF THE HUMAN JOURNEY

ABOUT.

Hello! I'm Pablo Nemo—award-winning traveler, explorer, professional speaker, and storyteller, honored to serve as the **Tourism Ambassador for Zanzibar.**

I am the first Spaniard—and one of the few in history—to walk unassisted and uninterrupted across the African continent. My journey was a tribute to "The Cradle of Humanity," a call to protect nature, and a revival of the spirit of true exploration. I embrace a modern nomadic lifestyle, blending adventure with deep cultural immersion.

Through my storytelling, I share raw, transformative travel experiences that inspire a profound connection with the world. My audience resonates with the essence of exploration, sustainability, and conservation—values that shape my journey as I uncover the wisdom of the Earth and its people.

- Managing success and failure
- Art of storytelling

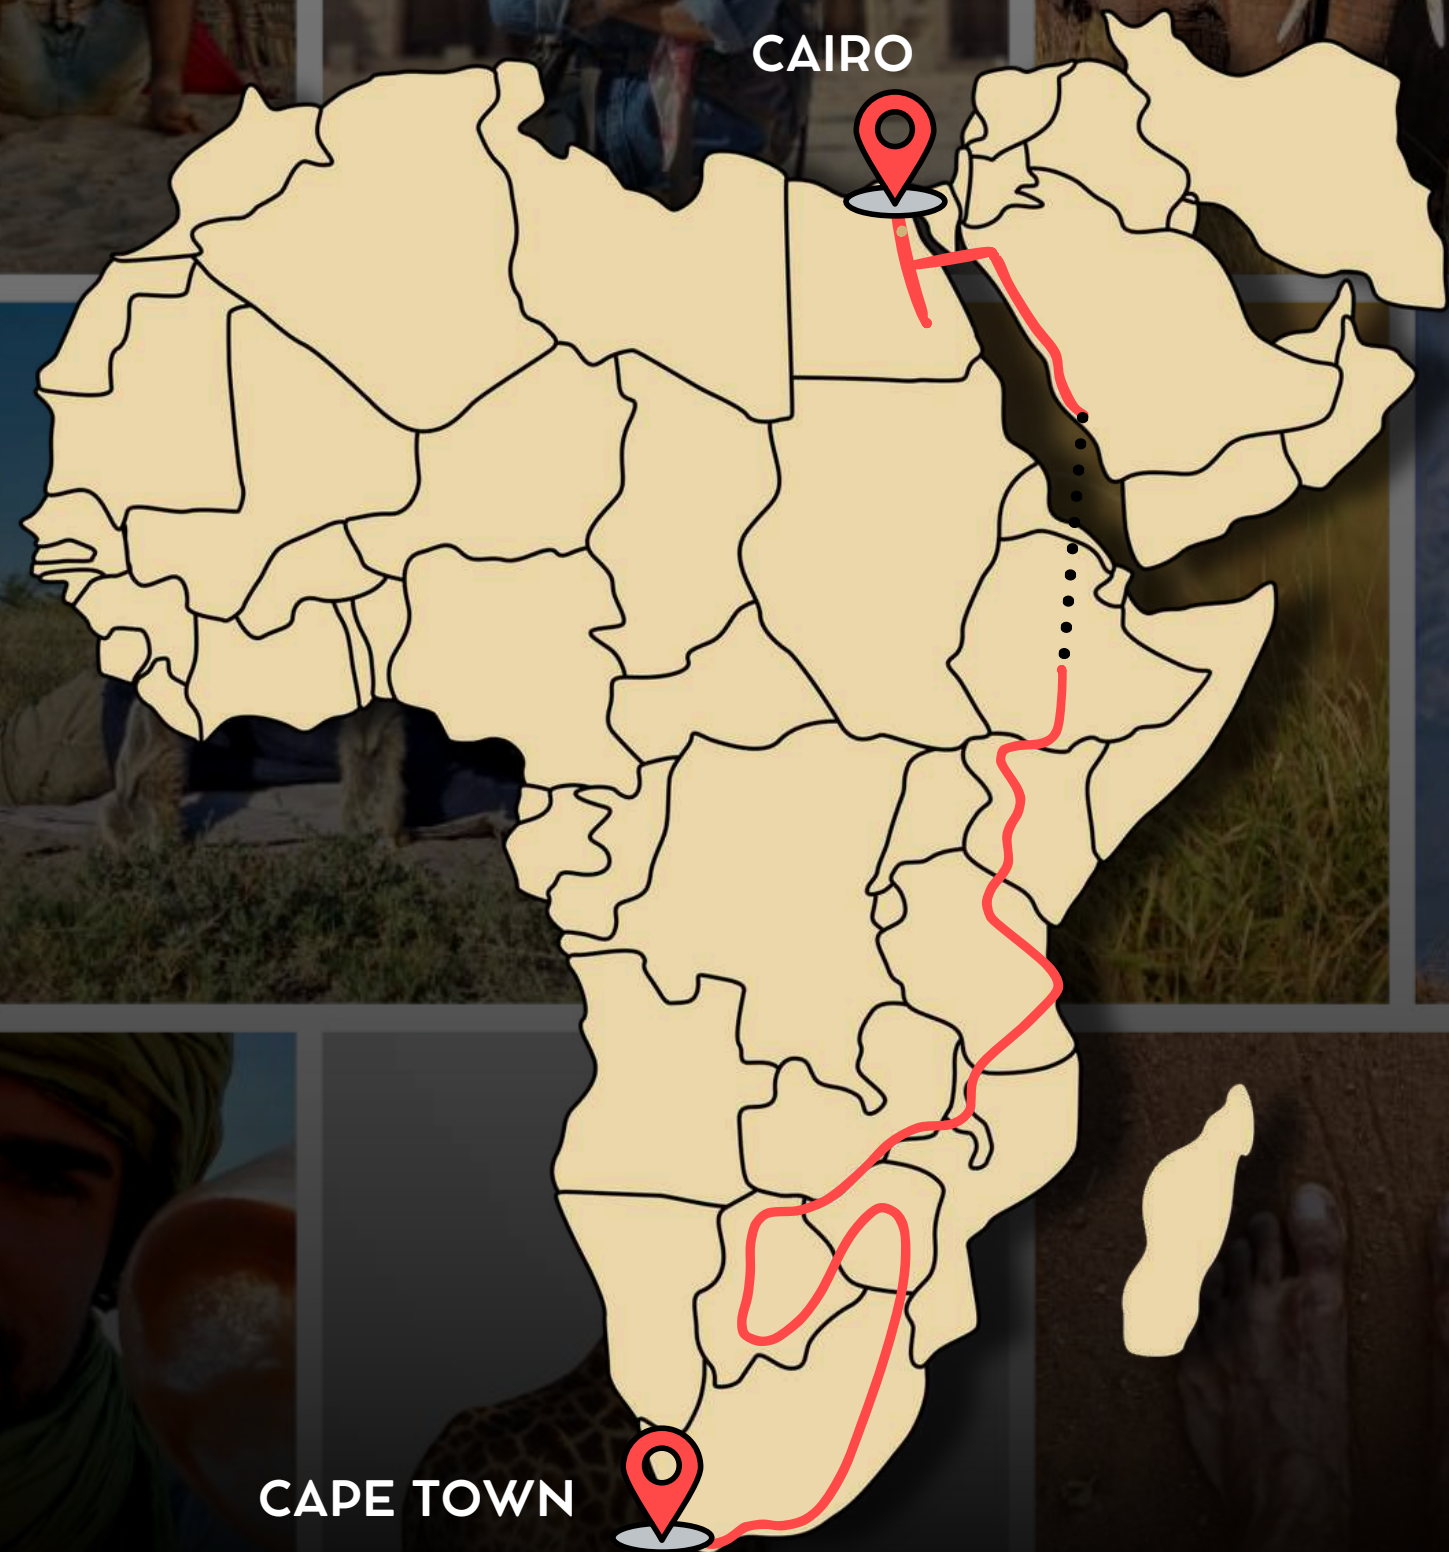

WALKING AFRICA.

PABLONEMO

8000 DAYS

ALONE. ON FOOT. NO ASSISTANCE

WALKING AFRICA (2021-2024) is my solo journey, an epic trek marking the first documented foot journey across the African continent from Cape Town to Cairo.

I walked through 11 countries and covered 15,000 kilometers over two years, an unassisted adventure relying solely on my own resources and determination.

I traversed diverse landscapes, immersed myself in local cultures, and faced numerous challenges. **Through this epic journey of endurance and exploration, my expedition not only showcased the beauty and diversity of Africa but also inspired people from different places to pursue their own dreams of adventure and discovery.**

Powered by  **MERIT CONCEPT**

*"History is written with many firsts: **Marco Polo**, **Jeanne Baret**, or **Louis Armstrong**, the first human to set foot on the Moon. Now, **Pablo Nemo** has become the first Spaniard to cross Africa on foot and solo for over 800 days."*

LA RIQUEZA HISTÓRICA, DIVERSIDAD CULTURAL Y ÉTNICA

Durante mi viaje, tuve el privilegio de sumergirme en esta increíble diversidad, conviviendo con comunidades tan diversas como los Tonga a orillas del Lago Kariba en Zimbabwe, los Mursi, Suri, Nyangatom o Arbore en las remotas regiones de Etiopía, las legendarias tribus Masai en las vastas llanuras de [Kenia](#), los ancestrales bosquimanos en los desiertos de Botswana e incluso los descendientes de los nubios en el sur de Egipto.

"At the culmination of an 800-day of pilgrimage through Africa, I've come to believe that happiness is a state of being found in gratitude for each present moment and in the loving acceptance of life in all its forms. In Africa, I discovered true happiness in the simplicity and fullness of the present moment."

Condé Nast
Traveler

TRAVELLERS

Pablo Nemo, the first Spaniard to travel across Africa on foot for 800 days

Known to everyone as Pablo Nemo, this Galician dancer and adventurer has just walked the African continent (from Cape Town to Cairo) for 800 days and covering a distance of 15,000 km alone.
